A large and commodious Bakehouſe, ſituate upon the Wharff in Bordentown, to be lett by J. BORDEN, junior.

By Captain WILSON, arrived at New-York from Briſtol, we have the following Advices, viz.

From the LONDON GAZETTE.

COLOGNE, Auguſt 12.

THE French have removed all their Sick from the Jeſuits and Dominicans, to the Recollects, where they have about 450 Men: By this Means, theſe two firſt Convents are ready to receive the Wounded, in caſe of a Battle between the two Armies.

The French Commandant has obliged the Burger Maſters of this free imperial City, to tranſport all the Cannon from the Arſenal, and to mount them on the Baſtions of this Town.

As the Britiſh Legion is ſaid to have arrived the 10th at Elberfeld, and that a Body of Light Troops were at Solinquin, only 7 Leagues from hence, no Boat is permitted to go up or down the Rhine; one that went from hence, contrary to Orders, was purſued, and taken a Quarter of a League from this City, the Boatman put in Priſon, and the Paſſengers ſent back to their reſpective Inns. All the Boats are ordered to the Left of the River between this and Duſſeldorff.

Peterſburgh, July 23. Prince George of Holſtein has been preſented with a conſiderable Sum of Money, and is continued Stadtholder of Holſtein, for which Country he propoſes ſetting out forthwith. [So far the London Gazette.]

Berlin, Auguſt 7. The Baron de Munchauſen, Counſellor of State, and Preſident of the Regency of Hanover, arrived here a few Days ago. After having had ſeveral Conferences with the Count de Finckenſtein, Miniſter of State for the foreign Department, he ſet out Yeſterday for Sileſia, in order to acquit himſelf of a Commiſſion with his Majeſty. The Object of his Commiſſion is not known; but ſome People think that it relates to ſome new Overtures for reconciling Matters between this Court and that of Vienna: Others imagine, that it relates to ſome Meaſures that have been concerted for bringing the new Sovereign of Ruſſia into a right Way of thinking; but this is mere Conjecture.

Peterſburgh, July 19. The following is an Extract from the Journal of the Proceedings of the Senate the 18th.

"The Chevalier de Panin reported to the Senate, that the Empreſs having reſolved to go to ſee the Corpſe of the late Emperor Peter III. and afterwards to aſſiſt at his Funeral, he was apprehenſive that the Shock would be too much for her tender Heart, and that ſhe would abandon herſelf to Exceſs of Grief, the rather as ſhe had wept inceſſantly ever ſince ſhe heard of his Death; and that he and the Hetman Count Roſomowſky had endeavoured to divert her from her Reſolution; but without Effect: Whereupon the Senate, fearing ſome fatal Alteration in her Imperial Majeſty's Health, waited upon her in a Body, to beſeech her to change her Purpoſes. At laſt, but with Regret, ſhe yielded to their humble Repreſentations, which was notified to the Senate by the Attorney-General."

The Empreſs hath created ſeveral new Senators, and made many civil and military Promotions.

Marche of Brandenbourg, Auguſt 11. General de Tauenzien ſummoned the Governor of Schweidnitz the 3d Inſtant to ſurrender, which being abſolutely refuſed, the Trenches were opened before that Place in the Night of the 5th and 6th, with very little Loſs.

Peterſburgh, July 25. Count Woronzow is confirmed in his Office of Chancellor: At the ſame Time Leave is given to the late Chancellor Beſtuchef, who was baniſhed by the Empreſs Elizabeth, to return hither. Young Count Munich, appointed by the late Czar his Miniſter at the Court of Stockholm, is ordered to remain here, to be employed otherwiſe, it being the Empreſs's Pleaſure that Count Oſterman ſhall continue to reſide at the Swediſh Court. All the Holſtein Officers, who have been diſmiſſed from their Commands, received Orders on the 21ſt to quit the Capital the ſame Day. Thoſe of them who were born in Livonia are to return to their native Countries, and all the Reſt are to leave the Empire. Some of the latter aſked to be employed in the Ruſſian Troops; but this was refuſed.

It is rumoured that the Crim-Tartars have committed Hoſtilities on the Territories of this Empire, and that there hath been a ſmall Action between them, and the Ruſſians, in which the latter were worſted.

Brandenbourg, Auguſt 14. The laſt Letters from Sileſia adviſe, that the Batteries before Schweidnitz began to play on the 11th; that the Garriſon defended themſelves vigorouſly, and had gained ſome Advantage in a Sally. The King hath changed the Poſition of his army, and the Auſtrians have occupied ſome Poſts very near him. Gen. Laudohn hath been detached with a conſiderable Corps to execute ſome Deſign; another Body of the Auſtrians hath deſcended from the Hills, and penetrated into Lower Sileſia.

Liſbon, July 20. We have nothing to write, becauſe the violent Heats will ſuffer nothing to be done. The 4000 Engliſh that arrived on the 15th from Belleiſle are going up the Tagus, to be landed as near as poſſible to Thomar, where three other Britiſh Regiments are poſted.

LONDON.

Auguſt 24. There is a ſtrong Probability that we ſhall hear of a Peace within a Week or Two. The Terms are founded on the Plan propoſed by our Patriot Miniſter; ſo that if the French are ſincerely inclined to put an End to the War, the Preliminaries will be ſigned with all Speed.---The Duke of B-----d has received Orders to hold himſelf in Readineſs to ſet off for Paris.

Her Majeſty and the Prince of Wales are ſo well, that the Drums beat, and Muſic plays again, when Guard is relieved at St. James's.

The Emperor of Morocco has broke his Treaty of Peace with the King of Denmark.

The Plague rages at Conſtantinople: Two Fifths of the Inhabitants have been carried off.

We hear that ſeveral more Men of War will be ordered for the Eaſt-Indies, in order to attempt the Reduction of the reſt of the French Settlements in that Part of the World.

Yeſterday a Lame Duck waddled off from Exchange-Alley, as it is ſaid, for a Difference of about 30,000 l.---This Day alſo another Lame Duck is gone off, having been crippled in the ſame Place.

Auguſt 25. This Week a great Number of Quarter-guineas will be delivered from the Mint into the Bank of England.

His Majeſty has been pleaſed to appoint Capt. Richard Baillie, of the 35th Regiment of Foot, to be Secretary of the Iſland of Martinico.

And Capt. Henry Shawe, of the 76th Regiment of Foot, to be Deputy Judge Advocate to the Forces ſerving in that Iſland.

Lieut. Alexander Wynnyett, of the 40th Regiment of Foot, to be Fort Major to the Grenados. And,

Capt. Sir Charles Farnaby, of the firſt Regiment of Foot-guards, to be Captain of the 58th Regiment of Foot.

Lieut. Nicholas Wade, of the 91ſt Regiment of Foot, to be Lieut. in the 5th Regiment of Foot, in the Room of Lieutenant Nugent.

Lieut. Robert Maclellan, of the 108th Regiment of Foot, to be Lieut. in the 19th Regiment of Foot.

They write from Berlin of the 10th Inſt. that they had an Account from Stargard, that the Ruſſian General de Berg, with his Body of Troops, that hath been there, and in that Neighbourhood, for ſome Time, marched from thence the 6th Inſt. by way of Zachau and Calies, into Poland.

There are three French Frigates of 36, 40, and 44 Guns, cruiſing up the Levant, to convoy their Trade from Alexandria and Smyrna. A Gentleman in the Britiſh Factory at Grand Cairo writes, that the French have had about 40 Ships this Year at Alexandria, though that is not Half the Number they formerly had.

The Palmtree, Holm, a Dane, from London to Venice, is taken by the Spaniards, and carried into Tariffa. This is the Ship that had on board the Baggage and Equipages of the Earl of Northampton, his Majeſty's Ambaſſador to the Republic of Venice.

On Monday arrived in the Downs the Poſtilion Man of War from Oporto, with near 30 Engliſh Merchant Ships under her Convoy.

Some Expreſſes were received from Germany this Morning, the Contents of which were immediately communicated to his Majeſty.

Sir Edward Hawke, with the Squadron under his Command, arrived at Torbay on Tueſday Morning, from off Cape Finiſterre.

His Royal Highneſs the Duke of York arrived in Town Yeſterday, in perfect Health, and was moſt graciouſly received by their Majeſties.

Letters from Baſque Road inform us, that we have there ten Ships of the Line, three Sloops, three Bombs, and three Fire-ſhips. The French Fleet, it was thought, durſt not come out, but they threatened to burn our Ships with their Fire-boats.

They write from Brandenburgh, that ſome News of Importance was daily expected from Saxony; Prince Henry had ſent off the Sick, and heavy Baggage of his Army, to a Place of Safety.

By a late Account of the Captures made by the French on the Britiſh Subjects, it appears, that from January 1761, to the preſent Time, they have taken 812 Ships in all, among which are 60 from Virginia, 51 from Newfoundland, 36 from Carolina, and 231 from Jamaica.

It is ſaid the Spaniards are returning from Portugal for Want of Subſiſtence, and that upwards of 4000 of them have deſerted, who received Half a Guinea a Man at the War-Office in Portugal.

By Letters from Breſt we are informed, that an Expreſs was arrived there from Paris, with Orders to get ready the two Men of War and two Frigates lately arrived from Cape-Francois, with all Speed, in Conſequence of which a great Number of extra Hands were employed, and it is thought the ſaid Ships will be ready in about a Fortnight, but their Deſtination is not known.

Some Perſons have been taken into Cuſtody, for ſelling and ſinging about the Streets, a certain impudent Song, lately publiſhed.

The Swift, Captain Tozer, arrived at Briſtol the 18th of Auguſt, from Boſton.

By Letters from Hanover, of the 17th Inſt. there is an Account, that the French had evacuated Gottingen the 16th Inſt. about Noon, and that the Garriſon marched to Witzenhauſen. Before they went off, they blew up all the Fortifications, and among the reſt a Powder Magazine, by which 50 Saxons loſt their Lives; and a great many Houſes, Roofs of buildings and Windows, were blown up and broke.

It is ſaid that his Royal Highneſs the Prince will be baptized by the Name of George Frederick Auguſtus, and that their Royal Highneſſes the Dukes of Cumberland and York will be Sponſors; but the latter, it is ſaid by ſome, is to ſtand only as a Proxy for the King of Pruſſia, at the earneſt Requeſt of that Monarch.

The Crowd of Ladies that flock to Court every Day to ſee the Royal Infant, and taſte of her Majeſty's Caudle and Cake, is, as may be ſuppoſed, innumerable. It is reported, that the daily Expence for Coffee amounts to upwards of 40 l. The Conſumption of Wine upon the joyful Occaſion is more than can eaſily be conceived.

Extract of a Letter from on board one of the Ships which took the Hermione.

"----There was all the Reaſon in the World to ſuſpect that the Spaniards had ſomething more than Linen and Woollen about them; accordingly by a Search, which was made without any Rudeneſs or Inſult, no inconſiderable Sum was found very artfully concealed in ſeveral Parts of their Apparel.---There was a Prieſt of a very mortified Aſpect, and who, in Accents no leſs mortified, begged he might be permitted to take with him two or three of his devotional Books; for about all other Things he was very indifferent. No Difficulty was made of this; but the Curioſity of a petty Officer promping him to look into one of the Books, he found it very weighty, on which ſtriking a Knife into the Cover, it pierced only the Leather, which being ripped off, behold a bright Exhibition of Quadruples, or four Piſtole Pieces, inlaid in every Side of the Paſteboard! The Book, ſtripped of its Cover, was given to the Prieſt, with this Compliment, "That about the Cover he was, to be ſure, very indifferent, and now the Book would be of lighter Carriage to him." The Cover is kept as a Curioſity."

His Majeſty's Ship Eſſex is arrived at Portſmouth with Lord Tyrawley on board.

A Spaniſh Veſſel from Cadiz, with Wine and Brandy, is taken by the Arethuſa Frigate, and brought into Portſmouth.

Auguſt 26. They write from Erfurth of the 17th Inſt. that the Prince de Stolberg, Commander in Chief of the Army of the Empire, upon ſome Diſguſt had reſigned his Command, and was gone to Vienna.

The King of Pruſſia, moved by the extreme Neceſſity of his Subjects in Pomerania, has cauſed Corn to be bought at Dantzick to the Value of 100,000 Crowns for their Relief. But notwithſtanding this bountiful Gift of the King, the Diſtreſs of this Province exceeds all Deſcription, as appears by a Letter lately received from an eminent Clergyman at Stettin, dated July 15, who, on his Journey to Colberg, found upwards of ſeven Villages laid in Aſhes, and others ſo ruined, that no living Creature was to be ſeen in them, but Skeletons of People periſhed with Hunger, and gnawed by wild Beaſts. In two Villages near Colberg, which he paſſed through, the Inhabitants ſurrounded his Coach, begging for a Bit of Bread, aſſuring him they had not ſeen a Piece of Bread for five Days.

A Tradeſman in the City, having taken a Wife, and living upon very ill Terms with her, they agreed to part, and the Wife retired into the Country, where ſhe was introduced as a Widow, to be Houſekeeper to a Perſon of Fortune. The Gentleman ſoon after conceived a great liking for her, would fain have married her; but being informed that a Huſband ſtood in the Way, they agreed to take each other's word. The Gentleman in a few Years died, leaving his Fortune to his beloved Houſekeeper; who, ſurviving him but a ſhort Time, it deſcended to a Daughter, the Fruit of their Embraces. The Girl then falling into the Direction of a Friend, who was a Stranger to the Mother's Marriage, and being brought up to Town to finiſh her Education, the Tradeſman by Accident became acquainted with her, was ſmitten, paid his Addreſs, and married her. Some Months after, having Occaſion to look over her Papers, to his great Surprize he found there ſeveral Letters in his Wife's Hand-writing, which he knew he had reſtored her at their Separation. This introduced an Inquiry, the Upſhot of which was, that he found he was married to his Daughter in Law; which ſo afflicted him, that he took to his Bed, and is ſince dead. The Daughter however, being the innocent, though unfortunate Inſtrument of his Unhappineſs, he took Care to remember in his Will; and the Addition this made to her Fortune, as well as a handſome Jointure ſettled upon her at firſt, ſhe is now become one of the wealthieſt Widows about this Metropolis.

According to the freſheſt Advices from Peterſburgh, the Empreſs aſſiſts very aſſiduouſly at Councils, and pays a very high Reſpect to the Senate. Several Perſons who ſtill remained in Exile during the late Reign, are recalled; and ſome who were ſent to very diſtant Governments, which in the Stile of that Country, is a milder Kind of Baniſhment, have had Leave given them to return to Court. As yet no conſiderable Changes have been made; but it is foreſeen there will be. There are not above three Perſons in Arreſt, the Emperor's Miſtreſs, an Officer of the Guards, and his Adjutant. It is generally believed, that notwithſtanding the Recal of the Forces under Count Czernicheff, Ruſſia will take no Part in the preſent War; and it is more probable that the reſuming of Pruſſia, which is certainly a Fact, was a proviſional Meaſure; and that as ſoon as Things are a little ſettled, that Kingdom, as well as Pomerania, will be totally evacuated. The Pruſſian Miniſter was never under Arreſt; the Guard placed before his Gate being only for his Security, and to prevent any Inſults from the Populace. The Advices by the next Mails, we have Reaſon to think, will confirm theſe Particulars.

To the PRINTER.

SIR,

Incloſed is the Copy of a Letter, which was really written by an honeſt Fellow who has the Care of ſome French Priſoners, and intended to have been ſent to the King of France, but it was ſtopped before it was put into the Poſt Houſe. As it contains good Senſe, intermixed with much Oddity, you may perhaps oblige your Readers, by inſerting it in your Paper. Your's, &c.

To MONSHIEUR ROY,
The King at France.

Monſhieur Roy,

I Thought I would write to you about what has happened at Newfoundland, and let you know how fooliſh your People behaved.----Lord help their ſilly Heads. Why the landing of Men there, is only making us a Preſent of ſo many Priſoners, for you will never get them off any more, whatever may be the Fate of the Ships that landed them.---Do you think I would drive my Oxen or my Aſſes into my Neighbour's Field of Corn, if I knew I could not get them away again? What nonſenſe!

The only Miſchief, indeed, your Commanders can do us, is by ſending more of their Countrymen to be maintained here, for we have too many already.---The Priſons are all full of them, and the Weather is hot, therefore keep your Folks at Home, I beſeech you, and not make thoſe we have in our Goals more unhappy, by being more crowded.

Your Fleets and your Armies were never ſo terrible to us as the Cock-lane Ghoſt, and both the one and the other are laughed at. That Phantom was laid laſt Week, and your Phantoms will vaniſh ſoon, or be laid in the Sea, if not in the Red Sea. So no more at preſent; from, Monſhieur, Your's &c. &c. &c.

BOSTON, November 1.

Extract of a Letter from Liſbon, Sept. 16, 1762

"Almeida ſurrendered the 25th ult. which opens the Province of Beira to the Enemy's Depredations, being a Part of the Country which gave the greateſt Expence of Fiſh; however, as they muſt eat, I hope Means may be found for a Conſumption. We were in great Pain for Pato and Coimbra, on Almeida's being taken; and had the Spaniards been alert, they might certainly have proceeded thither; but we are now told the Paſſes are ſo ſecure, that they are in no immediate Danger. I wiſh it may prove ſo, and the Enemy may not be able to force them."

NEW-YORK, November 8.

Captain Wilſon arrived here ſince our laſt from Briſtol, with whom came Paſſenger Capt. Balt. Kip, of this Port, who informs us, That 6 Days after he left Sandy-Hook, on the 9th of July, he fell in with a Fleet of eight Sail of French Veſſels, in Lat. 31 50, Long. 68 56 from London, and was chaſed four Hours, when he was brought to and taken by the Polacco St. Alexis, Anthony Foreſt, Commander, and was delivered up to the Commodore, a King's Frigate, called the Tyger, mounting 24 Nine-pounders, and 180 Men, who ſent his Brig to the Cape, Capt. Kip and five of his Men being kept on board the Tyger: That on the 23d of July, about 25 Leagues to the North of the Weſtern Iſlands, the Tyger fell in with two Ships, one Snow, and a Brig: One of the Ships engaged the Tyger two Glaſſes, when 2 of the Tyger's Guns burſt, killed five Men, and wounded ſeveral more; the Tyger then ſheered off and run.

Captain Wilſon ſailed from Kingroad the 30th of Auguſt, in Company with two Brigs for Boſton, one for Halifax, a Veſſel for Jamaica, one for Virginia, and ſix for the Coaſt of Guiney, under Convoy of his Majeſty's Ship Loo, Capt. Penny, of 40 Guns: In Lat. 49, Long. 61, they fell in with the Windward Iſland Fleet, bound to England, conſiſting of about 40 Sail, under Convoy of a Man of War.

Laſt Sunday Week the Cygnet Frigate, Capt. Aimes, ſailed from Sandy-Hook for England, with a Number of Tranſports, having on board only the Officers, Serjeants, Corporals and Drummers of the 2d Battalion of Royal Highlanders, the private Men being turned over to compleat the firſt Battalion of that Regiment.

About One of the Clock, laſt Friday Noon, a moſt terrible Fire broke out in a new Houſe, belonging to Meſſieurs John and Benjamin Halſtead, of this City, ſuppoſed to be occaſioned thro' the Careleſſneſs of the Workman's Apprentices, that were finiſhing one of the Upper Chambers, who had made a Fire in the Chimney, and went to their Dinners without taking proper Care of the ſame: The Houſe, with every Thing above Stairs, was conſumed in leſs than an Hour, notwithſtanding all Means that was poſſible to think of were uſed for its Preſervation.

The Flames in a ſhort Time ſpread along to the Roof of the Houſe adjoining, belonging to Mr. Benjamin Stout, and occupied by his Brother Mr. John Stout, and muſt in a little Time have conſumed that alſo, had not the Inhabitants exerted themſelves in an uncommon Manner on the Occaſion, and ſtopped the Progreſs of the Fire, after deſtroying the Roof.

The Loſs Meſſrs. Halſteads have ſuſtained by the above Misfortune cannot be leſs than 2000 l. and we ſuppoſe Meſſrs. Stouts Loſs cannot be leſs than 300 l.

PHILADELPHIA, November 11.

Mr. HALL, SIR,

PLEASE to inform the Public, that a Courſe of ANATOMICAL LECTURES will be opened this Winter in Philadelphia, for the Advantage of the young Gentlemen now engaged in the Study of PHYSIC, in this and the neighbouring Provinces, whoſe Circumſtances and Connections will not admit of their going abroad for Improvement to the Anatomical Schools in Europe; and alſo for the Entertainment of any Gentlemen, who may have the Curioſity to underſtand the ANATOMY of the HUMAN FRAME.

In theſe Lectures the Situation, Figure and Structure of all the Parts of the HUMAN BODY will be demonſtrated, their reſpective Uſes explained, and, as far as a Courſe of Anatomy will permit, their Diſeaſes, with the Indications and Method of Cure, briefly treated of; all the neceſſary Operations in SURGERY will be performed, a Courſe of BANDAGES exhibited, and the whole conclude with an Explanation of ſome of the curious Phænomena that ariſe from an Examination of the GRAVID UTERUS, and a few plain general Directions in the Study and Practice of MIDWIFERY.

The Neceſſity and public Utility of ſuch a Courſe in this growing Country, and the Method to be purſued therein, will be more particularly explained in an INTRODUCTORY LECTURE, to be delivered the 16th Inſtant, at Six o'Clock in the Evening, at the State-Houſe, by WILLIAM SHIPPEN, jun. M. D.

N. B. The MANAGERS and PHYSICIANS of the PENNSYLVANIA HOSPITAL, at a ſpecial Meeting, have generouſly conſented to countenance and encourage this Undertaking; and to make it the more entertaining and profitable, have granted him the Uſe of ſome curious ANATOMICAL CASTS and DRAWINGS (juſt arrived in the Carolina, Capt. Friend) preſented by the judicious and benevolent Doctor FOTHERGILL, who has improved every Opportunity of promoting the Intereſt and Uſefulneſs of that noble and flouriſhing Inſtitution."

The following is an Account of the melancholy Diſaſter that befel the Phœnix, of London, Capt. M'Gacher, in Latitude 37 N. and Longitude 72 Weſt from London, bound to Potomack, in Maryland, from the Coaſt of Africa, with 332 Slaves on board.

"On Wedneſday the 20th of October, 1762, at Six o'Clock in the Evening, came on a moſt violent Gale of Wind at South, with Thunder and Lightning, the Sea running very high, when

the Ship ſprung a Leak, and we were obliged to lie to under bare Poles. The Water gained on us, with both Pumps conſtantly working. At Ten, P. M. endeavoured to put the Ship before the Wind to no Purpoſe. At Twelve the Sand Ballaſt having choaked our Pumps, and there being ſeven Feet Water in the Hold, all the Caſks afloat, and the Ballaſt waſhed to Leeward, cut away the Rigging of the Main and Mizen-maſt, both which went inſtantly cloſe by the Deck, and immediately after the Fore-maſt was carried away about 20 Feet above. Hove overboard all our Guns, upon which the Ship righted a little. We were then under a Neceſſity of letting all our Slaves out of Irons, to aſſiſt in Pumping and Baling. Thurſday Morning being moderate, having gained about three Feet on the Ship, we found every Caſk in the Hold ſtove to Pieces, ſo that we only ſaved a Barrel of Flour, about 10 lb. of Bread, 25 Gallons of Wine, Beer and Shrub, and 25 Gallons of Spirits. The Seamen and Slaves were employed all this Day in Pumping and Baling, the Pumps were frequently choaked, and brought up great Quantities of Sand. We were obliged to hoiſt one of the Pumps up, and put it down the Quarter-deck Hatchway. A Ship this Day bore down upon us, and though very near, and we making every Signal of Diſtreſs, ſhe would not ſpeak to us. On Friday the Men Slaves being very ſullen and unruly, having had no Suſtenance of any Kind for 48 Hours, excepting a Dram, we put one Half of the ſtrongeſt of them in Irons. On Saturday and Sunday all Hands, Night and Day, could ſcarce keep the Ship clear, and were conſtantly under Arms. On Monday Morning many of the Slaves had got out of Irons, and were attempting to break up the Gratings; and the Seamen not daring to go down the Hold to clear our Pumps, we were obliged, for the Preſervation of our own Lives, to kill 50 of the Ring-leaders, and ſtouteſt of them.

"It is impoſſible to deſcribe the Miſery the poor Slaves underwent, having had no freſh Water or Food for five Days. Their diſmal Cries and Shrieks, and moſt frightful Looks, added a great Deal to our Misfortunes; four of them were found dead, and one drowned herſelf in the Hold. This Evening the Ship gained on us, and three Seamen dropt down at the Pump with Fatigue and Thirſt, which could not be quenched, though Wine, Rum and Shrub, were given them alternately. On Tueſday Morning the Ship had gained, during the Night, above a Foot of Water, and the Seamen quite wore out, and many of them in Deſpair. About Ten in the Forenoon we ſaw a Sail; about Two ſhe diſcovered us, and bore down upon us; at Five ſpoke us, being the King George, of Londonderry, James Mackey, Maſter; he immediately promiſed to take us on board, and hoiſted out his Yawl, it then blowing very freſh; the Gale increaſing, prevented him from ſaving any Thing but the White Peoples Lives (which were 36 in Number) not even any of our Cloathes, or one Slave, the Boat being ſcarce able to live in the Sea the laſt Trip ſhe made. Capt. Mackey, and ſome Gentlemen Paſſengers he had on board, treated us with great Kindneſs and Humanity."

The Brigantine Quince Tree, Captain Wilſon, from this Port to Cape-Fear, in North-Carolina, ſprung a Leak to the Southward of Cape-Hatteras, which gained upon the Veſſel ſo faſt, that notwithſtanding all Endeavours to keep her clear, there was ſoon above four Feet Water in the Hold; ſo that the People on board, (17 in Number) were obliged to take to the Boat, where they remained four Days, and were at laſt taken up, and carried into New-York, by Captain Braſs, in a Schooner from the Havannah.

From New-Providence there is Advice, that the Privateer Brig New Grace, Captain Taylor, of this Port, was loſt upon a Ridge of Rocks, as ſhe was coming out from thence for this Place; but that the Sails, Rigging, &c. would be ſaved.

By Captain Lake, from the Muſquito Shore, we are informed, that Captain Downer, in a Sloop from this Place, ſailed from Jamaica for the Muſquito Shore about the 20th of Auguſt, and was taken the Day after by a Privateer: That the Snow Keppel, Capt. Volonet, belonging to Jamaica, was caſt away on Glover's Reef, the third of September: That on the 8th of October, about ten Leagues off the Weſt End of Cuba, he ſpoke the Brig Mary Ann, Robert Dixon Maſter, who had been out ten Weeks from Jamaica for South-Carolina, and was in great Diſtreſs for Want of Proviſions, with which he ſupplied him: And that on the 14th he was off the Havannah, where he was informed, that ſeven Sail of Men of War had ſailed two Days before, to cruize off Cape Francois.

*** This Evening will be ſold at Mr. DUNLAP's Auction, Rapin's Hiſtory of England, 21 Vols. Octavo; Watts's Works, 6 Vols. Quarto; Brice's Geographical Dictionary, or Grand Gazetteer, 2 Vols. Folio; Murray on Ship-building; Rollin's Ancient Hiſtory, 10 Vols. Tillotſon's Sermons, 10 Vols. a choice Collection of Plays, 6 Vols. Congreve's Plays, 2 Vols. Life of Dr. Taylor, 3 Vols. ntinue their Buſineſs, as uſual; and will want a large Supply of Muſtard Seed, not only this, but alſo in ſucceeding
ſons: And in order that the Raiſers of that valuable Seed may
ot be at the Uncertainties they have ſometimes hitherto been, the ſaid BENJAMIN JACKSON, and Co. doth hereby promiſe to give Thirty-two Shillings per Buſhel for good Muſtard Seed, or in Proportion for any greater or leſs Quantity, of this Country Produce, and to continue that Price for three Years at leaſt (Death excepted.) And in order to remove the Difficulties many have met with that have attempted to raiſe it, and better inform thoſe that may have an Inclination to raiſe it now and hereafter, the following Method is preſented them, which is not only the eaſieſt, but the beſt and moſt certain Way to procure good Crops.----The general Complaint and common Objection made by ſome of thoſe who have tried the Experiment, is, That it does not ſucceed ſo well when ſown in a Field, &c. as it does in ſmall Patches near their own Houſes, where it ſows itſelf: The Reaſon of which is very obvious, for when it ſows itſelf, nothing covers it but the Waſhings of Rain; and when 'tis ſown in Fields, &c. 'tis moſt generally harrowed and buſhed, in order to cover it, which it does too deep, and hinders its coming through, at leaſt till the Ground is ploughed over again for ſome other Purpoſe. Miller, in his much eſteemed Books of Agriculture, ſays, "Muſtard Seed has, "in many Places in England, been known to have laid under "Ground many Years (even where the Land has been overflowed "with Water) at the Expiration of which Time, the Land be-"ing drained and ploughed, the Muſtard has come up thick, and "produced good Crops;" and the Reaſon he gives for its Continuance ſo long without Putrefaction is, the Seed abounding with ſo ſharp an Oil, which he ſuppoſes prevented the Water from pervading its Body, and being buried in the Ground, was kept from Air, and preſerved from Corruption. This is mentioned, to ſhew that the raiſing Muſtard-ſeed is not ſo troubleſome as is generally imagined; but on the contrary, that the great Trouble taken in covering the Seed, has been a great, if not the chief, Cauſe of the Failure in the Crops. The beſt Method is as follows, viz. after chooſing a ſuitable Spot, which ſhould be rich, plow it two or three times, and harrow it, in order to mellow it, and kill the Weeds; then ſow it as thick as for Turnips, or a little thicker, making an Allowance for what the ſmall Birds will probably get, leave it uncovered, as the firſt Rain will do that ſufficiently, and better than any other Way; it being ſuppoſed ſown in the Fall, the next Spring it ſhould be plowed into Rows, at about five Inches apart, in order the more conveniently to weed it, thin it, and gather it; the Plants ſhould be a Foot diſtant from each other in their Rows, and if they come up thicker, ſhould be thinned to at leaſt that Diſtance. This is all required in raiſing it; which, if practiſed, there will be little Danger of good Crops.

When the Land wants manuring, it ſhould be done with the Cleanings of Hog-pens mixed with Aſhes, after being uſed in making Lye, as it naturally grows beſt about old Hog-pens, and Aſh Heaps.

N. B. Altho' the Fall may be rather the beſt Time for ſowing it, yet the Spring will do very well.

## For HOG's BRISTLES,

By Captain BACHOP, from Londonderry, and Captain RANKIN, from Cork, we have the following Advices, viz.

From the LONDON GAZETTE.

BRESLAU, Auguſt 13.

WE hear that in the Night between the 7th and 8th, the Trenches were opened before Schweidnitz, by 4100 Travailleurs, at the Diſtance of about 600 Paces from the Glacis. The Beſieged having Notice of it by ſome Deſerters, began a moſt terrible Cannonade, in ſpite of which, however, the firſt Parallel was pretty well advanced before Day-break, with the Loſs only of one Officer, and 9 Men killed and wounded. The Enemy remained quiet till the 8th, at 2 o' Clock in the Afternoon, when they ſallied out with about 8 Battalions of regular Troops, and 1000 Croats. They made a falſe Attack upon the Left, and afterwards fell upon the right Flank, and, in the firſt Impetuoſity, routed the Battalion of Falkenhayn, made the Colonel, with ſome Officers, Priſoners, and killed and wounded about 100 Men; but however, upon Lieutenant General Tauenſin's ordering a few Battalions of Infantry immediately to advance with their Field Pieces, the Enemy were obliged to retire into the Town, without having been able to do any Damage to the Works.

It was reported, that the Auſtrian General Janini was wounded in this Attack. The Night between the 8th and 9th was ſpent in perfecting the Parallel, with its Communications, and five Batteries of Mortars, three of which began to play the ſame Night upon the Town. The Night between the 9th and 10th was employed in conſtructing the Angle Sailant, which will contain two Batteries of 10 Cannon each, to be opened in the Night between the 10th and 11th.

It is ſuppoſed that the Fortreſs of Schweidnitz is well provided with every Thing for a Siege; the Garriſon is as numerous as the Nature of the Place will admit; and the Commandant, before the Town was inveſted, had the Precaution to order ſuch of the Inhabitants as were not in a Condition to lay in a Store of Proviſions for their Subſiſtence, till the End of September next, to leave the Place.

The different Poſts occupied in the Mountains by the ſeveral Corps which form the King of Pruſſia's Camp, are as follow; Gen. Glablentz is poſted at Hartmanſdorff, towards Landſhut; Gen. Ramin at Waldenburgh; Gen. Manteuffel at Barſdorff; Gen. Neuweidt upon the Hills oppoſite to the Eul Geburge; Gen. Mollendorff at Barckerſdorff; Prince of Wurtemberg at Reichenbach; and the Guards du Corps, with the greateſt Part of the Cavalry, form a Chain in the Plain from Franckenſtein to Kuntzendorff. The Head Quarters are in the Center at Ditmanſdorff.

Breſlau, Aug. 17. The lateſt Accounts from before Schweidnitz are of the 14th. In the Night between the 13th and 14th, the ſecond Parallel was compleated, at the Diſtance of 300 Paces from the Fort; and nine Batteries are actually playing. The Fire from the Town is greatly diminiſhed, many of their Cannon having been diſmounted by the Fire from the Trenches. The Beſieged have made no Sortie worth Notice, ſince the 8th. 'Tis thought the Town will ſurrender in leſs than a Fortnight.

Aug. 18. We have received Advice here of an Action between Part of the Auſtrian Army, and the Corps of the Prince of Bevern, encamped at Gurtmanſdorff, near Riechenbach. The Prince of Bevern having been attacked on the 16th, in the Afternoon, by 33 Battalions, and 18 Regiments of Cavalry, under the Command of the Auſtrian Generals Laudohn, O' Donnel, and Beck, that Prince maintained his Ground with great Bravery, till the King of Pruſſia arrived in Perſon to his Aſſiſtance, with eight Battalions of Infantry, and a ſtrong Body of Cavalry, Dragoons and Huſſars. His Pruſſian Majeſty immediately attacked the Enemy's Cavalry, and totally routed them: A great Number was killed, and upwards of 1500 made Priſoners. The Auſtrian Generals ſeeing, by the Defeat of the Cavalry, their Infantry expoſed to the greateſt Dangers, inſtantly gave Orders to deſiſt from the Attack, and retreated towards Silberberg.

It is ſaid, that in this Action Colonel Loſiow, at the Head of his own Regiment of Huſſars, that of Vernan Huſſars, and Czettezitz Dragoons, attacked and routed eight Regiments of Auſtrian Cavalry, by which the reſt of that Corps were obliged to retire in great Confuſion. It is likewiſe reported, that Marſhal Daun was preſent in the Action.

Brunſwick, Aug. 17. The French have evacuated Gottingen, after deſtroying the Works of that Place, and ſetting Fire to the Powder Magazine, by the Exploſion of which, 50 Saxons were killed, the Ramparts of the Town almoſt all blown up, and the Town itſelf conſiderably damaged.

As Prince Frederick of Brunſwick was juſt at this Time in the Neighbourhood of Eimbeck with his Corps, upon its Return from the Expedition it had made on the Werra, he immediately marched, on the Advice he had received from Gottingen; and it was thought he intended occupying the Town, till he could receive farther Orders from Prince Ferdinand.

Hamburgh, Aug. 17. The 14th Inſtant, the Daniſh Troops in the Dutchy of Mecklenburgh Schwerin began to evacuate that Country; and ſeveral Regiments have already repaſſed the Trave, and returned back into Holſtein. The Danes are employed in ſelling their Magazines; and we hear there is to be a Reduction in that Army.

Aug. 20. The Ruſſians evacuated Colberg on the 6th of this Month; and the Kingdom of Pruſſia on the 10th. The 16th there were not any Ruſſian Troops to remain either in Pruſſia or Pomerania.

Hague, Auguſt 24. The French Army, under the Marſhals Soubiſe and d'Etrees, abandoned the Banks of the Fulda the 17th at Night, and marched away by their Right, in the Space which lies between Spangenburg and Lichtenau. The Army under Prince Ferdinand followed them on the 18th, and encamped at Homberg, where his Serene Highneſs's Head-Quarters were the 19th in the Morning. The Hereditary Prince is ſo poſted as to be able to join Prince Ferdinand: And the Prince of Conde has marched by his Right towards the Town of Fulda, with a View to cover the Retreat of the French Army. Munden is in the Hands of the Allies; and Caſſel was ſummoned on the 18th by Prince Frederick of Brunſwick. We are not yet informed what Garriſon has been left in that Town, about which the Accounts differ widely.

The King of Pruſſia defeated Gen. Laudohn on the 16th at Langen-Bielau. That General had been detached by M. Daun to diſturb the Siege of Schweidnitz, with a Body of 30 Battalions, and a large Corps of Cavalry. If the Auſtrians do not find Means to prevent it, it is expected the Town will be taken in a few Days, as the ſecond Parallel was compleated within leſs than 300 Paces of the Glacis.

Franckfort, Auguſt 29. The two French Marſhals are at Hanau with the Army, and have poſted a large Corps at Bergen. The Allies have burnt the Magazine at Friedberg, and have Detachments within three Leagues of us. The Prince of Conde is ſuppoſed to have joined the grand Army. Prince Ferdinand's advanced Poſts are near the Mein.

Brunſwick, Aug. 31. Preparations are making for the Siege of Caſſel. A Number of Gunners have been ſent away from hence, and they wait only for the Arrival of the heavy Artillery, which is now on the Road from Hamelen, in order to begin the Attack. Our Advices of the 26th aſſure us, that Baron Dieſbach, the French Commandant in Caſſel, has declared, that if the Allies ſhould aſſault the Place on the Side of the Upper New Town, he ſhould be obliged to ſet it on Fire; and that if they attempted it on the Side of the Iſland, he would treat it in the ſame Manner, and order all the Trees and Hedges to be cut down, to hinder the Enemy's Progreſs.

Within theſe few Days Advice has been received, that Count [illegible] a Body of 800 Men, having attacked the Caſtle [illegible] Garriſon of which conſiſted only of 50 Men, threw red hot Balls into it, which had entirely deſtroyed that Fortreſs, together with the Bailiff's Houſe; that the French afterwards plundered the Village, and ſtripped the poor Inhabitants of every Thing.

Hague, Sept. 3. Schweidnitz offered to capitulate the 21ſt or 22d, upon Condition of the Garriſon's marching out with the Honours of War, &c. which the King of Pruſſia refuſed. Count Daun has retired into Glatz.

Edinburgh, Auguſt 18. The French Officers who lately arrived from the Eaſt-Indies in the Hawke and Plaſſey Indiamen, are ſailed from Leith for Holland, in their Way to France. The Intention of their going over, is to appear at the Trial of M. Lally, againſt whoſe Proceedings, at the Siege of Pondicherry, ſeveral of the Officers proteſted, and tranſmitted to France a Memorial, containing the Grounds of their Complaint. They are ſtill to be conſidered as Priſoners, and muſt return again to Britain, when required, if not exchanged.

LONDON.

Aug. 27. The freſheſt Advices from Warſaw inform us, that they are not by any Means free from Apprehenſions of the Tartars; the Cham having diſpatched an Expreſs to Conſtantinople, upon which, and his threatening ſome of the Mirzas, who deſerted him, ſeveral have rejoined him with their Troops, and it is apprehended he will make an Irruption either into the Territories of the Republick, or into the Frontiers of the Ruſſian Empire, to which it is thought he has been invited by ſome of the diſcontented Coſſacks. There are many Rumours at Court, as if the late Revolution in Ruſſia would be remarkably favourable to his Poliſh Majeſty, and his Family. All the Differences between the Crown and the City of Dantzick are amicably compromiſed; in Conſequence of which the King will receive a conſiderable free Gift, and in Return he will cancel his Pretenſions to a Tax equally odious and inſupportable to the Inhabitants.

They write from Peterſburgh, that the Czarina Catherine II. ſeems to repoſe an entire Confidence on the Senate, who, on the other Hand, appear very zealous for the Support of the Imperial Authority. Her Cabinet Miniſters are the High Chancellor, Count Woronzow, the Vice-Chancellor, Prince Galitzin, and Count Panin, who is Secretary. It is thought Count Beſtucheff Rumin, who is reſtored to his Honours and Eſtate, will likewiſe have a Share in the Miniſtry. Prince Menzikoff is at the Head of the Probrazenſki Guards; Marſhal Soltikoff it is thought will command the Army in Chief, and probably that great Corps of Troops which is to aſſemble in the Neighbourhood of Moſcow, during the Time of her Imperial Majeſty's Coronation. The new Manifeſto makes a great Impreſſion, at leaſt for the preſent, on the Minds of the Ruſſians. It is believed that after the Coronation another Manifeſto will appear relative to her Imperial Majeſty's Intention with reſpect to the other Powers of Europe, which will effectually ſettle the Characters of the new Reign.

The late grand Chancellor of Peterſburgh, the Count de Beſtucheff, arrived at Peterſburgh from his Exile on the 20th of July.

Letters from Sileſia aſſert, that the Siege of Schweidnitz is carried on with equal Vigilance and Vigour; and that the principal Magazine in the Place had been blown up, by the falling of a Bomb into it, which had damaged ſome of the Works, and thrown the Inhabitants into a great Conſternation. It was generally believed that the Place could not hold out beyond the 24th Inſtant; and it was alſo reported, that Count Daun had received Orders to attempt the Relief of it at all Events.

The laſt Letters from Berlin adviſe, that the Troops of the Empire were returning, with a View, as it was ſuppoſed, of joining again the Army of the Count de Serbelloni; and that Prince Henry would employ all his Efforts to prevent their Re-union.

The laſt Letters from Paris ſay, that the Affairs of Germany embarraſs the Court to the laſt Degree. The Friends of Marſhal Broglio take Care to detect all the Falſhoods in the Bulletines from the Army, and to place the Miſtakes of d'Etrees and Soubiſe in the ſtrongeſt Point of Light; while another Party, who are averſe to the Connections with Spain, are as induſtrious in ridiculing the Invaſion of Portugal, and the Conduct which the Dons have purſued in America; where it is affirmed, they are in ſo weak and defenceleſs a Condition, that the Marquis de Blenac found it impoſſible to yield them any Aſſiſtance, or to expect any from them. Many of the Jeſuits parade the Streets of Paris in laced Cloaths, and Swords by their Sides; and make no Secret of being well pleaſed at the Diſſolution of an Order, under which they led the Lives of the moſt abject Slaves.

Letters from Liſbon, dated the 12th Inſtant, adviſe, that on the 9th a Courier arrived from the Court of Spain, ſaid to relate to the Affairs of that Kingdom, which ſeem to have a good Aſpect.

It is ſaid that the Gentleman lately ſent over here by the Grand Maſter of Malta, to juſtify the Behaviour of the Order in ſeizing the gallant Capt. Merryfield, Commander of the Blenheim Privateer, and confining him in a diſmal Priſon in that Iſland, will be given to underſtand, that this Proceeding of theirs is very ill reliſhed by this Court, and that Capt. Merryfield, though naturalized at Embden, yet is to all Intents a Britiſh Subject, and as ſuch will be demanded by us, together with the Reſtitution both of Ship and Cargo, and a ſufficient Sum beſides, by Way of Damages for his Confinement.

It is now paſt all Diſpute that the Dutch Man of War, and three Tranſports, are brought into the Downs; and that they have military Stores on board, for the Uſe of the French at Breſt. If ſuch Things are ſuffered, ſurely we had better be at War with them, than have ſuch Allies. It may be remembered, that about eight Months ago they had given Orders to fit out ſeveral Men of War to protect their Trade, as they called it; but it appears it was to carry on an illicit one with our moſt inveterate Enemy, and hereby give them ſecret Aſſiſtance that tended to diſtreſs us.

We hear that Capt. Sawyer, who firſt engaged the Hermione, will only be entitled to a Moiety of an Eighth, which will only be about 40,000 l. he having agreed with Capt. Meadows to accept the Commiſſion on thoſe Terms; and that Capt. Pownall, who was in Company with him, will not receive leſs than 80,000 l.

Extract of a Letter from Portſmouth, Aug. 29.

"We daily expect Sir Edward Hawke's Fleet up here. The Wind at preſent is againſt him.

"His Majeſty's Ship Mars, Commodore Spry, is under ſailing Orders for Halifax; the Commodore is to relieve Lord Colvill."

Commodore Spry is going out on an Expedition: He took Leave of his Majeſty laſt Friday.

The Preliminary Articles at preſent whiſpered about Town as authentic, occaſions many Objections, and much Murmuring, among all Degrees of People.

We hear that a certain illuſtrious Perſonage, equally celebrated in the Cabinet and in the Field, has declared, that as far as his Influence extends, there ſhall be no Peace but what is honourable, and promiſes to be laſting.

Great Expectations are formed by the Public, of a certain illuſtrious Commoner's Diſpoſition, with reſpect to the enſuing Peace, the Depth of which, we are aſſured, he is fathoming with the utmoſt Accuracy, in order to make himſelf a thorough Maſter of its Tendency, and expoſe the Principles on which it is founded, with his uſual Ciceronian Eloquence, to the Britiſh Senate.

The following ſingular Toaſt was laſt Night drank in a certain great and polite Aſſembly, near St. James's, viz. "A Continuance of ſucceſsful War, or a glorious Peace, but no S----- Peace or Influence therein."

Yeſterday Morning an Expreſs was diſpatched to the Lord Chancellor, at his Seat at Grange in Hampſhire, for his Attendance in Council, on Affairs of Importance.

Aug. 28. His Daniſh Majeſty, who has abundant Reaſon to bleſs his Stars, that Peter III. was ſo opportunely for him ſeized with a deadly Cholick, has lately ſent two Daniſh Noblemen to Kiel, the Capital City of Ducal Holſtein, to intimate to the Regency, that the King their Maſter propoſes to take Poſſeſſion of the Holſtein Dominions of the Grand Duke Paul Petrowitz, and to hold them for that Prince, until he comes of Age. The Regency refuſed to grant the Pretenſions of the King of Denmark, and diſpatched a Courier to Peterſburgh for Directions how to behave in this Affair. In the mean Time the Meſſage of theſe Nobiemen is ſeconded, as it is ſaid, by a Body of Daniſh Troops; and the Conſequences of this new and ſingular attempt are expected with Impatience.

Some private Letters from Peterſburgh, brought by Yeſterday's Mail, inſinuate, that the Peaſants were aſſembling in great Numbers, in the Intereſt of the young Czar John, who was ſet aſide in 1740, when an Infant.

Other Letters ſay, that there is a great Ferment at Peterſburgh, and a Revolt at Moſcow; in Conſequence of which ſome important Event may ſoon be expected.

The Pruſſian Colonel de Langenow entered Colberg the 10th Inſt. with a Pruſſian Garriſon; and the Pruſſian Troops again occupy Konigſberg and the Fortreſs of Frederickſburg in Pruſſia, where all Things are put on the Footing of the Treaty concluded between the King and the late Emperor of Ruſſia.

The following Letter was received Yeſterday Morning by the Right Hon. the Lord Mayor.

Whitehall, Auguſt 29, 1762.

My LORD,

'I HAVE the Earl of Egremont's Directions to acquaint your 'Lordſhip, that in Conſequence of his Moſt Chriſtian Ma'jeſty's Nomination of the Duc de Nivernois, to come here to 'treat of a Peace, the King has been pleaſed to name the Duke 'of Bedford to go to Paris for the ſame Purpoſe; and his Grace's 'Appointment will be declared on Wedneſday next, the Firſt of 'September. My Lord Egremont thinks it may be of uſe to 'make this public in the City as ſoon as poſſible.

I am, with the greateſt Reſpect,
My Lord, your Lordſhip's
Moſt obedient humble Servant,
ROBERT WOOD.'

To the Right Hon. the Lord Mayor,

We hear, in Conſequence of the Letter ſent by Order of the Earl of Egremont to the Lord Mayor, that there will be a Meeting of the Lord Mayor, Aldermen and Common-Council of the City this Day, in order to petition to his Majeſty, on Account of the Overtures for a general Peace.

The Duke of Bedford, we hear, is to be at Dover on Monday next, at which Time the Duke de Nivernois will alſo be at the ſame Place.

It is ſaid that ſome conſiderable Dealers in the Stocks have for ſome time had their Agents in Holland, ready to ſend over immediately on the firſt authentic Reports of a Peace, in order to furniſh them with an Opportunity for making great Gains by the Advantage of an early Intelligence; but this Scheme being known, was fruſtrated; for the News of Peace by Lord Egremont's Letter to the Lord Mayor, was communicated to the Public before the Stockjobbers in Holland could know it. Thus, for once, the Merchants and Traders, who, on all Occaſions, are the principal Support of the Government, have had the fair Offer of making ſome Benefits of their Money.

If the Preliminaries were concluded and ſtated by us, and the French and Spaniards have accepted of them, and ſigned them, it is impoſſible for us to recede; ſo that it is thought the Peace will be ratified as ſoon as the neceſſary Preparations for the Treaty can be got ready.

It is expected that a Ceſſation of Arms will ſpeedily be publiſhed both by Sea and Land.

The following are reported to have been Part of the Preliminary Articles:

Canada to be kept by Great-Britain.---The Fiſheries at Newfoundland, with Reſpect to Great-Britain, France and Spain, are to be put on the ſame Footing as before the War.---The Spaniards to ceaſe Hoſtilities in Portugal, and renounce their Claim to the Portugueſe Crown.---The Havannah to be reſtored, if taken, and if not, Hoſtilities there to ceaſe.---The Neutral Iſlands to remain with Great-Britain; and Guadaloupe, Martinico and Belleiſle to be reſtored.---Senegal to remain with England, and Goree to be reſtored.---Louiſiana not having been yet attacked, to remain of Courſe with its preſent Poſſeſſor.

The other Objects of leſs Importance, ſuch as Minorca, the Adjuſtment of Affairs in the Eaſt-Indies (which will probably be done by Commiſſaries;) German Concerns, and a few maritime Matters, are to be referred to a Negociation.

The above Peace, it is ſaid, is ſeparate, reſpecting Great Britain, France and Spain only; no Congreſs will be held, but it is not improbable that before it is ſigned the Powers of the Continent will accede to it; ſo that we hope there will ſoon be a final Settlement of all Differences, and a general Peace concluded; at leaſt it may reaſonably be expected; for when the French have drawn off their Aſſiſtance to the Empreſs Queen, the King of Pruſſia having only her to contend with, will ſoon oblige her to hearken to equitable Terms of Accommodation.

It is thought that the Return of Sir Edward Hawke's Fleet from the Coaſt of Spain was one of the Preliminaries of the approaching Peace.

We hear that his Royal Highneſs the Duke of York will ſoon be declared Biſhop of Oſnabrug.

We are informed from good Authority, that ſoon after the Baptiſm and Creation of His Royal Highneſs the Prince of Wales, &c. the Duke of York will be appointed Lord High Admiral of England, with a Committee of an equal Number with the preſent Commiſſion of that Board.

Great Betts are laid, that a Peace with neither of the Powers at War with us will be concluded in three Months.

It is reported that the Duke of Devonſhire is to go Lord Lieutenant of Ireland; Lord Bute to reſign his Place in the Treaſury, and to take the Office of Lord Chamberlain; and Lord Halifax to ſucceed Lord Bute.

Sept. 11. It is given out, that the Terms of Peace will not be ſigned until they be laid before the Parliament.

The Yacht that carried over the Duke of Bedford, was but two Hours and 40 Minutes in her Paſſage from Calais to Dover, as was ſeen by a Glaſs from the Cliffs.

Part of a Letter from the Hague, Sept. 3. "It is confidently ſaid, that the Court of Verſailles, at the Deſire of that of London, hath conſented to the holding a Kind of Congreſs at this Place, if Spain ſhould not be prevailed upon to drop her Oppoſition to a Peace; which many People think ſhe will not, becauſe ſhe is juſt now employing Agents in Germany to hire Troops from the German Princes; and it is rumoured that a Body of Bavarians will ſoon enter into her Pay."

A Letter from Duſſeldorp, dated the 2d Inſt. ſays, "We juſt now hear that a Peace is near concluded between England and France, which we can ſcarce give Credit to, as the Allies carry all before them, the two French Marſhals not daring to riſk a Battle. When the French were in Poſſeſſion of Part of the Electorate of Hanover, and ſeemed to have had a fair Proſpect of conquering the Whole, we would not have been ſurprized at hearing ſuch News; but now they are entirely driven out of that Electorate, and are followed and diſtreſſed to the laſt Degree by Prince Ferdinand, who, in all Probability, would have forced them over the Rhine this Campaign, and carried the War into their own Country the next, it is almoſt ridiculous to think the Allies will liſten to any Terms of Accommodation, except they are advantageous to Great Britain."

On Friday the 27th ult. the main Body of the Allied Army, with Prince Ferdinand at their Head, marched ſuddenly, and with great Expedition, in Hopes to have attacked the two French Marſhals between the Fulda and the Lahn; but the French having received private Information of their March, broke up their Camp, and retreated [illegible] Precipitation towards Franckfort. It was

thought the two Marſhals would have riſked a Battle, had they been fortunate enough to have joined the Prince of Conde; but the Vigility and Activity of Prince Ferdinand and the Hereditary Prince had totally prevented that Junction.

We are informed, that notwithſtanding the Preparations which are making for a ſpeedy Peace, Eight or Ten Millions will be raiſed for the enſuing Year.

By the beſt Accounts, we hear of very little Damage that has happened in either the Jamaica or Leeward Iſland Fleets, though there were in all 207 Sail.

Letters from Gibraltar aſſure us, that a Communication was opened with the oppoſite Barbary Shore, where we have a conſtant Supply of freſh Proviſion daily.

Yeſterday arrived in Town the Duke de Nivernois, the Ambaſſador from the Court of France.

One Hundred and Seventy Ships arrived in the Downs from Jamaica and the Leeward Iſlands, under Convoy of his Majeſty's Ships Centurion (Commodore Sir James Douglas) Woolwich, and Falkland.

The Kennington, Saltaſh, and Pallas Men of War, have ſent into Gibraltar two Spaniſh Polaccoes, from Cadiz, bound to the Havannah, with Stores, Proviſions, &c.

The Quantity of Sugars already in Town, and the Arrival of the two Fleets from the Weſt-Indies, has cauſed that Commodity to fall near 20 per Cent.

Letters from Paris inſinuate, that in caſe the preſent Negociation for Peace ſhould fail, a new Quadruple Alliance is on the Carpet, which will aſtoniſh all Europe.

His preſent Grace of Canterbury has performed the following great Offices, viz. the baptizing, marrying and crowning of his preſent Majeſty; to which he has now added the baptizing of his firſt-born Son; a Series of Honours, no one of his Predeceſſors could ever boaſt of.

Some private Letters from Paris ſay, that the Humour of the Court of Madrid is ſtrangely changed; that an Alteration in his Catholic Majeſty's Miniſtry is like to take Place; and that the new Miniſters are in general Men diſpoſed to Peace.

The Stores from the Tower for Portugal are all embarked, and are going down the River to join ſome others from Woolwich, and other Parts of the River.

The Vivacity with which the Siege of Schweidnitz is puſhed, renders it in a Manner certain that it cannot long hold out; and many People think, that upon its Surrender, a Ceſſation of Arms between her Imperial and his Pruſſian Majeſty, will take Place.

St. James's, Sept. 11. On Wedneſday Evening, the 8th Inſt. the Ceremony of Chriſtening his Royal Highneſs the Prince of Wales was performed in the Great Council Chamber of His Majeſty's Palace, by his Grace the Archbiſhop of Canterbury. His Royal Highneſs the Duke of Cumberland, His Moſt Serene Highneſs the Reigning Duke of Mecklenburgh Strelitz (repreſented by his Grace the Duke of Devonſhire, Lord Chamberlain of His Majeſty's Houſhold) being Godfathers; and her Royal Highneſs the Princeſs Dowager of Wales being Godmother. The young Prince was named George Auguſtus Frederick.

Whitehall, Sept. 11. His Majeſty has been pleaſed to conſtitute and appoint WILLIAM FRANKLIN, Eſquire, to be Captain General and Governor in Chief of His Majeſty's Province of New-Jerſey, in the Room of JOSIAH HARDY, Eſquire.

Dublin, Sept. 7. Five Men from each Company in the Regiments commanded by the Colonels Elphinſtone, Giſborne, Mackay, Pomeroy, and Cuninghame, have been draughted from the ſaid Corps, and are to rendezvous in this City on the 13th Inſt. in order to be embarked for Portugal.

Corke, Sept. 26. By a Dutch Veſſel arrived here in 15 Days from Bourdeaux, we have Advice, that on the 25th paſt eight Frigates, from 20 to 36 Guns, full of Troops, had ſailed from thence; but meeting bad Weather they put back the 27th, and ſailed again the 28th, ſuppoſed to be deſtined to ſtrengthen and ſecure their valuable Conqueſt at Newfoundland.

BOSTON, November 4.

By Capt. Ball, who arrived here the Beginning of this Week from Martinico, we have Advice that the Fleet from the Leeward Iſlands were to ſail about the 1ſt of this Month. That the Engliſh Frigates and other Cruiſers had made the Enemies Privateers diſappear from the Iſlands. That Capt. Pote, belonging to this Place, was taken on his Paſſage to Martinico.

A ſmall Shock of an Earthquake was felt at Portſmouth in New-Hampſhire laſt Thurſday Morning, between One and Two o'Clock.

We hear from Portſmouth, New-Hampſhire, that two Men and two Women coming down the River a few Days ago, in a Canoe, were accidentally overſet, and all drowned.

Saturday laſt the Body of a Boy, of about 6 Years of Age, was taken up at one of the Iſlands in this Harbour. He belonged to the North-End, and had been miſſing about a Fortnight: It is ſuppoſed he fell from a Wharff when fiſhing, and was drowned. "Such Inſtances ſhould induce Parents to be cautious of allowing young Children to be fiſhing at Wharffs."

We hear from Newport, Rhode-Iſland, that a few Days ago one Mrs. S------of that Town, was lately delivered of her Twenty-third Child.---This prolifick Perſon is now but in the 41ſt Year of her Age.

NEW-YORK, November 11.

On Tueſday laſt arrived at the Hook the Minerva Frigate, with 7 Tranſports from St. John's, in Newfoundland.

Commodore Spry ſailed from England with Ships under his Command, for St. John's, two Days after the Ships which arrived there the 16th Day of September laſt, and as by the laſt Advices from St. John's, he was not arrived there, many People think it probable he has intercepted the French Squadron, which eſcaped from thence, and is gone back with them to England.

## Further ADVICES by Captain Rankin from Cork.

HAGUE, Auguſt 27.

THE Letters from Heſſe, of the 21ſt paſt, confirm the Evacuation of Gottingen by the French, which they made with ſo much Precipitation, that they left behind them 3 Pieces of Braſs Cannon, 12 Pounders, and a great Quantity of Ammunition of all Kinds.

They add, that the Hanover Dominions were now entirely recovered from the Enemy; who has left in Caſſel a Garriſon of 11 Battalions, and ſome Cavalry, under the Orders of M. Diebach; and that Prince Ferdinand had blockaded the Place.

Col. Reideſel had diſlodged M. Conflans from Padberg, and had taken a Captain and 70 Men, with a Number of Horſes.

Auguſt 31. We have an Account from the Army, that Prince Ferdinand's Head-Quarters were on the 26th paſt at Mahr. The French continue to retire. His Serene Highneſs was to march that Day to Ulrichſtein, between the Fulda, and the Lahne. The two Marſhals had paſſed the Town of Fulda, and were approaching the Mein, without having yet been able to join the Prince of Conde, whom the Hereditary Prince continues to follow, having ſucceſſively obliged him to decamp with Loſs from Grunberg, and other Places.

On the 25th paſt, that Prince being upon the March with ſome Light Troops, with a View to attack the Rear-guard of the French Army, fell in with the main Body, and was received with a violent Cannonade, by which he loſt 30 Men, and was obliged to leave 3 Field Pieces behind him upon his Retreat.

Prince Frederick of Brunſwick had inveſted the Town of Caſſel, which is ſaid to be in great Diſtreſs for Proviſions.

Lieutenant General d'Auvet had bombarded the Town of Hamm, and ruined a few Houſes there; but was ſince retired again to the Rhine.

Since the ill Succeſs of Gen. Laudohn's Attack upon the Duke of Bevern on the 16th, in Sileſia, M. Daun was retired into the County of Glatz.

Peterſburgh, July 30. The Empreſs lately publiſhed an Ordinance, prohibiting the Exportation of Corn, which has been ſtrongly remonſtrated againſt by the Engliſh, Pruſſian and Dutch Miniſters. The publick is unacquainted with the Motive of this Prohibition.

It was the Field Marſhal Soltikoff, who, upon hearing of the Revolution here, thought proper to retake Poſſeſſion of the Kingdom of Pruſſia, without any ſufficient Authority for that Purpoſe: And the Empreſs being determined to continue at Peace with his Pruſſian Majeſty, has ſignified to that General her Diſapprobation of his Conduct upon that Occaſion.

As Foreigners have no Preferment to expect here, the Empreſs having determined to employ Ruſſians only, they are leaving us in Shoals, to ſeek their Fortunes elſewhere.

Liſbon, July 27. Money is extremely ſcarce here; ſo that the Court waits with great Impatience for the Arrival of the Rio de Janeiro Fleet, which is expected in the Courſe of next Month, and which it is preſumed will be very rich, as his Majeſty has not received his Quintos [Revenues] from the Braſils theſe two Years.

The Prince of Mecklenburgh Strelitz, and the Count de Lippe-Buckebourg, are treated here with the higheſt Marks of Diſtinction. The King has even tranſmitted to the latter all his Authority over the Troops, and granted him Acceſs to his Perſon at all Hours of the Day.

Milan, Auguſt 11. It is reported, that, at the Inſtigation of the Engliſh, a Squadron of Barbary Corſairs is put to Sea, to hinder the Tranſports of Sailors, Proviſions, and Ship Timber, from Naples and the Eccleſiaſtical State, to Spain.

Weſel, Auguſt 28. While M. d'Auvet was bombarding Hamm, the Marquis de Comeiras advanced towards Lipſtadt and Paderborn, with Clermont's Volunteers, and beat and diſperſed ſeveral Detachments of the Allies, made many Priſoners, and burnt a Number of Waggons, which were going with Proviſions to the Camp of Prince Ferdinand of Brunſwick.

Berlin, Auguſt 24. Marſhal Daun, after miſſing his Blow on the 16th, retired with his whole Army, in the Night between the 17th and 18th, to Wartha, and on the 19th he retired farther. The Siege of Schweidnitz is carried on with incredible Vivacity. Both the Attack and Defence do Honour to thoſe by whom they are conducted.

Prague, Auguſt 18. Bohemia being defenceleſs on the Side of Trautenau, the Pruſſians have advanced to Czirchau, with 600 empty Carts, which they filled with the Fruits of the Earth, and carried clear off.

Thuringia, Auguſt 21. We continue to talk of the ſpeedy March of the Wurtemberg Troops. It is ſaid that they are taken into the Pay of France, and that they are to join the Prince of Conde.

Cleves, Auguſt 28. The Siege of Hamm began in the Night between the 20th and 21ſt, and was carried on with red hot Bullets. The Flames blazed very violently in the Town on the Night between the 25th and 26th, but we know no Particulars of the Damage done. The Place however has ſuffered greatly, but the Siege was raiſed by a Detachment of 4000 Men, ſent by Prince Ferdinand from his Army for that Purpoſe. Before they came up, the Marquis d'Auvet, who commanded at the Siege, thought fit to decamp from before the Town.

Paris, Auguſt 20. The Hopes of an approaching Peace between our Court and that of London, are better founded now than ever; for Mr. O'Dunne, late Miniſter at Liſbon, is ſet out ſuddenly for Madrid, and there is Reaſon to believe, that the Motive of his Journey is to engage the Spaniſh Miniſtry to conſent to an Accommodation with Great Britain, upon the Terms which we have agreed to with that Court.

LONDON.

Sept. 2. There is now finiſhed in Long-acre a moſt magnificent State Coach, for the preſent Empreſs of Ruſſia, deſigned originally for the unfortunate Peter III. The Harneſs alone coſt 1500 l. The Buckles are all gilt, and the whole finiſhed with the greateſt Elegance.

On Saturday died at his Houſe at Hagley in Warwickſhire, Thomas Smyth, Eſq; Admiral of the Blue.

The Letters from Conſtantinople by Yeſterday's Mail ſay, that ſome Symptoms of the Plague were beginning to appear again in that Capital.

It is ſincerely wiſhed, that we ſhall not only retain all the Neutral Iſlands, but alſo all the Leeward Iſlands, Cape Breton and Canada: If not, for what have we fought any more than Reputation.

The Duke de Nevere, or Nivernois, which is a Difference in Title equivalent to our Diſtinction between the Duke of Buckingham and Duke of Buckinghamſhire, who is named by his Moſt Chriſtian Majeſty to come over with a public Character here, is a Nobleman of very diſtinguiſhed Rank, being, by the Demiſion of his Father, ſtill living, Duke and Peer of France, and, by Deſcent from his Mother, Prince of Verpagno in Italy, and of the Holy Roman Empire, Grandee of Spain, a Noble Venetian, a Roman Baron, Knight of the King's Order, and Member of the Academy. He is about 40 Years of Age, was formerly Ambaſſador from his Moſt Chriſtian Majeſty at Rome, and in the Year 1756 went with the ſame Title to the Court of Berlin. He is deſcended from the Siſter of Cardinal Mazarini, and bears likewiſe that Name. His Father, who is in the 87th Year of his Age, is Philip Julius Francis Mancini Mazarini, Duke of Nevere, &c.

Letters from Spain, by Way of Genoa, ſay, that the Catholic King has given Orders for raiſing Eight Thouſand Men, to increaſe the Spaniſh Army in Portugal to 70,000.

The ſame Letters mention the Count d'Aranda's being very dangerouſly ill at Madrid, and that a great Sickneſs prevailed amongſt the Engliſh Troops in Portugal, owing to the great Heat of that Climate, to which they were not accuſtomed.

This Day eight Lame Ducks waddled out of Change-Alley.

'Tis ſaid that Sir Charles Hardy is ſent for from his Country Houſe, in order to take upon him the Command of a Squadron which is to put to Sea directly.

His Grace the Duke of Bedford will make a brilliant Appearance at the Court of France, for which Purpoſe a moſt magnificent Equipage and Service of Plate have been for ſome Time paſt preparing; and his Grace's Retinue, which will be very numerous, have beſpoke rich Habits to appear in at Paris.

Extract of a Letter from Portſmouth, Sept. 2.

"There have been this Week 200 light Horſes put on board Tranſports from the Jetty-head in our Dock-yard, for Liſbon, to mount Part of the Portugueſe Cavalry."

The King has been pleaſed to make a Preſent of 400 l. to King's College, in New-York; and 200 l. to the College in Philadelphia.

Tueſday the 9th of November is fixed for the Meeting of the Parliament, then to ſit for the Diſpatch of Buſineſs.

A certain Noble Duke, of the Blood Royal, we hear, with Pleaſure, greatly intereſts himſelf, true Patriot like, in the Cauſe of his native Country at this Juncture.

It is ſaid a certain great Admiral has reſigned, and deſired Leave to retire.

A Letter from the Neighbourhood of Jauer, in Sileſia, dated the 20th of Auguſt, ſays, that the Siege of Schweidnitz is carried on with the utmoſt Fury. The Efforts on both Sides are almoſt incredible. The Garriſon make frequent Sallies, which ſometimes are ſucceſsful. The Fire of the Beſiegers is terrible, and that of the Beſieged is equal to it. As for the Troops in the Field, they come to Blows every Day more or leſs.

According to private Letters from Weſtphalia, dated the 28th of laſt Month (i. e. three Days after the Victory ſaid to have been gained by the Prince of Conde over the Hereditary Prince of Brunſwick) there is no Doubt, but that the Allies will be able to drive the French over the Rhine in a very ſhort Time. At Caſſel the Enemy have left ten Battalions, which hardly amount to 5000 Men.

A Number of Cannon are ſent down to Windſor, to be placed on the Ramparts of the Caſtle.

Extract of a Letter from on board the Hunter at Sea, Auguſt 26.

"Having this Opportunity by a Cutter, I ſend you the following Particulars, which you may depend upon; and though they ſeem trivial, may yet be the Occaſion of a Rupture between the Dutch and Engliſh. We were cruizing off the Texel the 23d, and fell in with a Dutch Man of War, and 4 Ships under her Convoy; we, as uſual, deſired to ſearch them, but were told by the Man of War, that his Convoy muſt not be ſearched, having ſtrict Orders from the States to protect them; he likewiſe ſaid, he was bound to Goree in Holland, though he ſteered a direct Channel Courſe; that, and our having ſome Suſpicion of his Convoy's carrying on a Contraband Trade, as we could ſee one of them loaded with Maſts, &c. made us keep cloſe to him till laſt Night off Calais, when we fired a Signal for a Cruizer, and were joined by the Tryal Sloop, who we ſent into the Downs, to aſk the Commodore's Advice how to proceed; the Commodore's Order was to take them into the Downs; the Tryal in coming to join us (which ſhe did about Noon this Day) made the Signal for all Cruizers; the Diana, Cheſter, and two Cutters, joined us before ſhe came up. Capt. Adams, in the Diana, being Commodore, went to the Dutch Man of War, and deſired him in the moſt genteel Manner to permit him to ſee what his Convoy were loaded with, but was anſwered, that he was determined to protect his Convoy as long as he was able. This gave greater Reaſon to think they were ſomething extraordinary. Captain Adams dropt aſtern, being determined to ſearch the Ships, and withal to give the Dutch Man of War fair Play, ordered the Cheſter, Tryal, Kingfiſher, and Hunter, to drop aſtern of him, and not to fire a Gun, but ſend out Boats with an Engliſh Jack hoiſted in each of them, on board the Convoy. At the ſame Time he ran along Side of the Dutch Man of War, and told him, if he fired at the Britiſh Flag, he would fire a Broadſide into him. The Dutch anſwered, he might fire, and be damn'd, and directly fired 2 Shot at our Boats; when Captain Adams gave him a Shot, and immediately received a Broadſide from the Dutchman; on which an Engagement enſued between them, which laſted about 15 Minutes. The Dutchman ſtruck his Colours, as did his Convoy; the firſt Lieutenant and 6 Men were killed, and the Captain and 3 Men wounded, and his Rigging much damaged; the Diana had no Body hurt, only received two Shot through her Mizen-maſt, and a few Grape in her Sails.

"The Diana and he were well matched; he had 26 twelve Pounders, and our Ship 28 on board, though ſhe is a 32 Gun Frigate. Mynheer began very briſk, but ſoon ſickened, and the Diana increaſed her Fire every Minute. The Captain muſt be ſome hot-headed Man, to throw away his Mens Lives as he did, but he certainly did it to breed a Quarrel; we ſhall take them into the Downs as ſoon as the Wind is fair.

"P. S. After I had wrote the annexed, heard we were to finiſh our Cruize, which is a Fortnight longer."

It is ſaid a Meſſenger is diſpatched to the States of Holland, to enquire into the Inſult lately given to the Britiſh Flag, by one of their Men of War.

Thurſday Orders were ſent to releaſe the Dutch Man of War lately brought into the Downs, and to ſupply her with Stores and Proviſions, on her paying for them; but her Convoy is detained.

By Captain INGLISH, in five Weeks from the Orkneys; and Captain SMITH, in Thirty-three Days from Greenock, in Scotland, both arrived at Boſton, we have the following late and intereſting ADVICES, viz.

PARIS, Auguſt 30.

WE learn from Breſt, that a Squadron, of one Ship of 116 Guns, four of 74, one Frigate of 32 Guns, one of 30, one of 16, and two Bombketches, victualled for ſeven Months, and having on board between 5 and 6000 Land Forces, under the Count d'Eſtaign, were to ſail immediately from that Port.

Hanover, Sept. 3. The Baron de Hardenberg ſet out Yeſterday for England, whither he has been ſent for by the King, in order to furniſh Eclairciſſements regarding the Affairs of the Electorate, and which may be wanted in the Courſe of the pacific Negotiation that is ſoon to be entered upon at London.

The Baron de Munchauſen is ſtill in Sileſia. His Buſineſs there, it is thought, is to know on what Conditions his Pruſſian Majeſty would make Peace with the Empreſs Queen, and to what Point he may be diſpoſed to liſten to ſome Sacrifices, for the Love of ſo ſalutary a Work.

Paris, Sept. 6. The Duke de Nivernois is accompanied in his Journey to England, by the Seur Durand, his Majeſty's Miniſter to the King and Republic of Poland, and by Sieur Deon, Captain of Dragoons, in Quality of Secretary to the Embaſſy.

His moſt Chriſtian Majeſty has aſſured the Empreſs Queen, that at the ſame Time that he is labouring to procure to his Kingdom a ſolid and honourable Peace, he has her Intereſts ſtrongly at Heart, and ſhall regard them as his own.

We flatter ourſelves that this Negociation will not prove as fruitleſs as the preceding, with which Meſſieurs de Buſſy and Stanley were charged. Some Folks pretend to be aſſured, that the principal Difficulties, which cauſed that to break off, are now removed; and in comparing ſeveral Circumſtances, we find their Opinion well founded. Thoſe Difficulties were, the Indemnification demanded for the French Ships ſeized before the War; the Evacuation of the Provinces on the Lower Rhine, belonging to the King of Pruſſia, and occupied by our Troops; and laſtly, the Succours to be furniſhed to the reſpective Allies in Germany. As to the firſt Point, we have ſome Reaſon to believe, that our Court, from its Deſire to reſtore the public Tranquility, has renounced it; and in regard to the two others, the contracting Parties have agreed upon certain Arrangements, provided they meet with the Approbation and Acquieſcence of the Empreſs Queen, and his Pruſſian Majeſty, for the two Courts have each declared the one to the other, that they are firmly reſolved not to depart in any Thing from their Engagements with their Allies, but what ſhall be to their full Satisfaction.

We are well aſſured, that what diſpleaſes Spain in the Preliminary Articles, is not the Refuſal either of the Satisfaction demanded from England, or of the Reimburſement of the Expences of the War; but the Ceſſion of Louiſiana to England; which will, in Conſequence hereof, ſoon become Miſtreſs of all Florida.

Sept. 12. Since the Arrival of his Grace the Duke of Bedford at this Place from England, Things here ſeem quite metamorphoſed. Our Trade (which in a Manner ſeemed at a Stand) begins to wear a good Appearance, and this again diffuſes an Alacrity and Pleaſure over every Countenance. It is ſaid here, that the Preliminaries are actually agreed to and ſigned, and will in a very ſhort Time be made public.

Sept. 17. The Duke of Bedford arrived here the 12th, and has had ſeveral Conferences with the Duke de Choiſeul. We regard our Reconciliation with England as near and infallible. Some even pretend to know, that the Government has already ſent Orders to Count de Heronville, to ſend back to their reſpective Garriſons the Troops which form the Army on the Coaſts of Flanders; and has directed the marine Departments at Breſt and Toulon to ſuſpend the Equipment of the Squadrons in thoſe Ports, and only to continue the Building the Veſſels, for which divers Provinces, Cities and Communities, have contributed Money.

Hague, Sept. 7. The Prince of Conde having retired ſucceſsfully as far back as Friedberg, in order to make a Junction with the Marſhals Soubiſe and d'Etrees, abandoned even the Heights near that Town, and marched to Rodheim on the 29th paſt, on which Day the Hereditary Prince arrived at Wolferſheim. His Highneſs thought it neceſſary to put Gen. Luckner forward on the 30th to thoſe High Grounds, whilſt he marched to Aſſenheim. On his March, he was informed that a large Body of French were returning towards Friedberg; and being deſirous to get before them, he altered his Plan, and inſtead of continuing his March to Aſſenheim, determined to ſupport Gen. Luckner. He had then no Reaſon to imagine that the Prince of Conde had been reinforced, though it afterwards appeared that the grand Army of France was at Hand to ſupport him. The Hereditary Prince's Infantry attacked with the greateſt Bravery, and in a ſhort Time drove the French, who were poſted upon the ſteep Mountain called Johannis-berg, into the Plain below. Having there been conſiderably reinforced, the French renewed the Attack with Advantage, and obliged the Allies to repaſs the Wetter. In the Retreat, the Hereditary Prince, who was rallying the Troops, was wounded in the Hip, but the Wound is declared by the Surgeons not to be dangerous. Prince Ferdinand, upon the firſt Report of the Hereditary Prince's being engaged, marched with a conſiderable Part of his Army from his Camp at Nidda to ſupport him, and arrived Time enough to prevent the French from purſuing their Advantage, which conſiſts in the Loſs of 7 or 800 Men on the Part of the Allies, and ſeveral ſmall Field Pieces. The Number of killed and wounded on either Side is not yet known; but we hear that the Count de Guiche was taken by the Allies. The reſt of the Confederate Army came up the next Morning, and Prince Ferdinand's Head Quarters were on the 1ſt Inſt. at Bingenheim,

Whitehall, September 4. In the London Gazette, His Majesty, in Council, has been pleased to order, that in the Morning and Evening Prayers, and all other Parts of public Service, the following Form of Prayer shall be for the future observed: "Our "Gracious Queen Charlotte, their Royal Highnesses George "Prince of Wales, the Princess Dowager of Wales, and all the "Royal Family."

WINDSOR-CASTLE, September 22.

THIS Day Captain Singleton arrived here from Portugal, with the following Letter from the Marshal Count de la Lippe, to the Earl of Egremont.

My LORD,

I HAVE the Honour to acquaint your Lordship, that having detached Brigadier-General Burgoyne with his Regiment, and 17 Companies of Grenadiers, to make an Attack upon Valencia d'Alcantara (where, according to Information, that in all Probability was to be depended upon, the Enemy had formed a large Magazine of Flour and Forage.) This Officer executed his Operation with so much Conduct and Valour, that having entered the Place first, at the Head of his own Regiment, gallantly conducted by Col. Somerville, Sword in Hand, and afterwards dislodged the Enemy's Infantry, after an obstinate Resistance, out of the Houses, by the valorous Behaviour of the British Grenadiers under Lord Poultney's Command, the Spanish Regiment of Seville was entirely destroyed: A Major-General, one Colonel, one Captain, 5 Lieutenants, 3 Stand of Colours, and all the private Men were taken that escaped the Sword. The Information about the Magazine proved groundless; but the General Officer was to have entered Alentego in a few Days with a considerable Corps d'Armee, and was then employed in reconnoitring the Entrances into that Province.

"The Loss of the British Troops, who had the principal Share in this Affair, is luckily but inconsiderable; and consists in Lieut. Burk, of Col. Frederick's, one Serjeant, and three private, killed; two Serjeants, one Drummer, and 18 private wounded; ten Horses killed.

"The British Troops behaved on this Occasion with as much Generosity as Courage, and it deserves Admiration, that in an Affair of this Kind, the Town and the Inhabitants suffered very little, which was owing to the good Order Brigadier Burgoyne kept up, even in the Heat of the Action.

"This Success would probably have been attended with more, if Circumstances, that could not well be expected, had not retarded the March of 16 Portuguese Battalions, and three Regiments of Cavalry.

"The Bearer of this is Capt. Singleton, who distinguished himself very much in the Affair; and I take the Liberty to recommend him to your Lordship's Protection. I am, with great Respect, My LORD,

Your Lordship's most obedient,
and most humble Servant,

THE REIGNING COUNT DE SCHAUMBOURG LIPPE."

NISA, August 30, 1762.

LONDON.

Sept. 5. It is said that, if Peace takes Place, some of the Regiments now in America will be disbanded there, and encouraged to settle at the Back of Carolina and Georgia, in the fruitful Plains betwixt the Alleghany Mountains and the River Mississippi, Country hitherto claimed by the French, as a Part of Louisiana.

Sunday, at Half past Two in the Afternoon, a Courier arrived at the Secretary of State's Office, who brought an Account of the Duke de Nivernois's Arrival at Calais; soon after which the Duke of Bedford set out for Dover, having a Retinue of 23 Coaches, and about 30 Horsemen.

Sept. 7. According to Advices from Warsaw, the Khan of the Tartars had sent express Orders to the Nogayes, to rejoin his Camp immediately; from whence it was with Probability concluded, that they did not intend an Irruption into the Territories of Russia, since, in order to that, it would have been more expedient for the Khan to have marched into the Country of the Nogayes.

Sept. 9. Some Letters from Holland advise, that if Peace cannot be restored between the Courts of Vienna and Berlin, at the same Time that the Differences between England and France are adjusted, France will bind herself not to give the House of Austria any Succours stipulated by Treaty.

St. James's, Sept. 15. This Day the Duke de Nivernois, Minister Plenipotentiary from France, had a private Audience of his Majesty, to deliver his Credentials.

London, Sept. 15. Sunday Evening Sir Charles Hardy sailed from Plymouth, with six Sail of the Line, supposed to cruize off Cape Clear, in order to intercept some Ships expected from Cape François, that are richly laden, having the Effects of many of the Inhabitants of the Havannah, who retired on hearing of our Intention to go against it.

The Duke de Nivernois landed at Dover on Saturday. Mr. Poyntz, at whose House at Burlington-street his Grace is to reside, till Lord Pembroke's can be fitted up, came over with him, and came on directly to London; but the Duke lay that Night at Canterbury, and about Eight on Sunday Morning arrived at Mr. Poyntz's. He was received by the Duke de San Severino, the Neapolitan Ambassador, Mr. Cottrel, and Mr. Poyntz; and Yesterday his Equipage came over Westminster Bridge.

The Duke of Bedford was received at Paris with the greatest Acclamations ever known, and it is said that he was conducted into that City by 400 of the French King's Household Troops.

A Letter from Paris says, "Whatever Hopes we may have of Peace, Orders have been sent to Bourdeaux, Rochelle and Nantz, to get ready several Ships with all Diligence, to carry Troops, &c. to Newfoundland, which it very much concerns us to preserve.

The last Letters from Paris say, that in case the present pacific Negociation should prove fruitless, the War will, for the future, be carried on on a new Plan. A numerous Army will be kept upon the Rhine; but the greatest Efforts will be made by Sea, and with this View there is a strong Squad on equipping at Brest, which is to be victualled for seven Months; and Orders have been likewise sent for repairing and manning all the Ships that are left at Toulon, though it is foreseen that this will be a Work of Time.

By private Letters from Paris of the 8th current, we have Advice, that Orders were issued for four Regiments of Troops to march immediately from Brest, where they are to embark on board the Men of War fitting out at that Port, but on what Destination is not known, though it is generally believed to be, to reinforce their Troops at Newfoundland, which it would appear they would wish to retain till the Conclusion of a Peace.

From Petersburgh we are told, that there has been lately a Mutiny among the Guards, which for some Time excited the most disagreeable Apprehensions, but that it has been happily quelled.

We hear from Paris, that they had Advice from Madrid, mentioning, that the Fortress of Almeida surrendered to the Spaniards on the 25th past.

The foreign Gazettes, in their Accounts from the Armies in Westphalia, seem all to agree, that a Cessation of Arms was hourly expected.

Sept. 16. The Zephyr, a French Frigate, from Brest for Newfoundland, with Naval Stores, of 22 Guns, and 230 Men, of which 100 are Soldiers, is taken by the Lyon Man of War, Capt. Le Bras, and sent into Plymouth; the Zephyr had ten Men killed, and 40 wounded; the Lyon had only two Men killed. Three Sail came out of Brest in Company, and the Monmouth was left in Chace of one of them.

It is reported, that amongst the Persons lately executed in the Place de Greve at Paris, by Torch Light, was the celebrated Marquis de Vaudreuil, late Governor of Canada, not merely for his surrendering up that important Country, but for the many Tyrannies and Cruelties exercised by him, on his Dependants in that Quarter of the World, to gratify his own avaricious Temper. Many of his Accusers were Officers who had been taken Prisoners; but were released on their Parole, in order to appear against him at his Trial.

It is given out, that the Terms of Peace will not be signed until they be laid before the Parliament.

It is said there are above 100,000 Hogsheads of Sugar come in the West-India Fleet, besides Rum, &c. which 'tis thought must greatly lower the Price.

On the 11th Instant the Humber Man of War, Capt. Onslow, of 40 Guns, Convoy to the East Country Fleet, ran on the South of Hasborough Sand, and is entirely lost.

Sept. 18. Three Dutch Men of War, taken by some of his Majesty's Ships, and brought into the Downs, are sent from thence to Chatham. They consist of two 70 or 74 Guns, and one of 44 Guns; the latter is said to be the Ship which engaged one of his Majesty's Ships: They are along-side the Jetty-head, and were Yesterday taking the Guns out of one of them, which are Brass, and of curious Workmanship: They are carried up into the Warren. One of these large Ships is loaded with English Bread, Cheese, Irish Pork and Beef, with Naval and Military Stores of every Kind; the other two are loaded with very fine large Masts and Yards, and other Implements of War; the Crews are at Liberty to return home if they please. Their Convoy, consisting of four or five Merchant Ships, were suffered, upon giving Surety for that Purpose, to return to Holland, after taking out three Masts and Yards from each, by Way of Proof against them, when the Causes come before the Lords Commissioners. The Captain and Crew of the 44 Gun Ship have not yet obtained their Leave to go home.

Some Letters from Breslau say, that several Waggons, loaded with Presents from the Empress of Russia for the King of Prussia, are arrived there, escorted by a Detachment of Cossacks.

A Letter from the Hague of the 10th says, that the Engagement of the Dutch Ship of War with the English Frigate would, at some Seasons, have occasioned a Rupture between the Powers; but that this Affair was considered as having already blown over.

His Royal Highness the Duke of York sets out in a few Days to join Sir Charles Hardy in the Bay.

Yesterday two of the principal Persons concerned in publishing the political Prints, that have lately appeared, were taken into Custody by Mr. Carrington, one of his Majesty's Messengers.

Sept. 21. This Morning, at Eleven o'Clock, their Majesties set out from St. James's, in a new Post Chaise and four, and escorted by a Party of Light Horse, for Windsor. They were accompanied by her Royal Highness the Princess Dowager of Wales, Prince William, Lord Bute, &c. and a great Number of Nobility and Gentry.

The several Press-gangs have received Orders to be very vigilant, to get as many Seamen as possible; and it is reported to be from an Obstinacy in the Court of Madrid.

The following Articles are now handed about as the Terms agreed upon between Great-Britain and France, for the Foundation of a separate Peace, and meet with great Credit.

All North-America to be ceded to Great-Britain: The River Mississippi, as far as the River Vassou, to be the Boundary between Canada and Louisiana, which last to be left entirely to the French.

Great-Britain to keep Tobago, Dominica, St. Vincent, the Granades, and the Grandillos.

The French to fish on the Banks of Newfoundland, as before the War, and to have the two little Islands of St. Peter's and Miquelon to dry their Fish on, and to have two Forts, and fifty Men in each, but subject to the Inspection of British Commissaries, and Great-Britain to be sole Governors and Commanders both by Land and Sea.

Minorca and Belleisle to be restored to their former Owners; Great-Britain to keep Senegal, and to restore Goree.

The French to be allowed to settle in the East-Indies; to have three Settlements wherever our East-India Company shall think proper, those Settlements to be Places of Trade only, and no Fortification but what may be requisite for protecting them from the Inroads of the Natives.

The British and French Forces are to be called from Germany, except some Troops of both Countries to remain in Garrison in Wesel, Guelders, &c. till a Peace between the Empress Queen and the King of Prussia is concluded.

The French to evacuate Ostend and Newport; the Harbour and Forts of Dunkirk to be destroyed, according to the Treaty of Utrecht and Aix la Chappelle.

As to Spain, the French agree, that if the Spaniards do not come into the Peace, the French are not to assist the Spaniards against Great-Britain or Portugal in any Respect, but Great-Britain is at Liberty to assist Portugal.

It is confidently said, that Spain has absolutely refused to treat.

It is also confidently said, that though the Duke de Nivernois has his Orders to agree to the Preliminaries, yet his Grace the Duke of Bedford is ordered not to sign, unless Spain likewise accedes to the Peace, which it is expected will be known for certain in a few Days.

The Duke of Cumberland Packet-boat, Captain Goodridge, is arrived at Falmouth, in 32 Days, Express from New-York.

At a Time when we were in Hopes that a general Peace and Tranquility were in a fair Way of being re-established throughout Europe, a Cloud seems to have arisen in the North. The Duke de Biron claims, as his Right, the Dutchies of Courland and Semigallia, which the new-made Empress seems determined to put him in actual Possession of: The King of Poland, on the other Hand, espouses the Cause of his Son, who has Pretensions to that Dignity; and, if the Polish Nobless should be inclined to assist their Sovereign in the Establishment of his Family, it may occasion a Rupture with Russia, if the Motions lately made on the Frontiers by the Tartars does not prevent it.

The Installation at Windsor To-morrow will be remarkably splendid, and much more so than usual, as the Occasion is extremely singular, viz. that of enthroning his Majesty as Sovereign of the Order. His Majesty's Cap is set with Jewels to a prodigious Value, and his Robes will be looped up with Diamonds. The Queen's Stomacher, made for this Occasion, is said to be worth 50,000l. a single Jewel in it being valued at 10,000l. It is supposed the Expence of the Installation will amount to 20,000l. but it is customary for the Crown to defray the whole of it, when any of the Royal Family are installed.

Orders are given for the Essex Man of War to sail directly from Spithead upon some extraordinary Occasion.

An Extract of a Letter from Windsor, dated September 21, at 11 o'Clock at Night.

"This Evening their Majesties arrived here from London, attended by a great Number of Persons of Distinction; they passed through the Streets very slowly amidst the loud Acclamations of a vast Concourse of People, who came here from all Parts of the Country."

September 25. Schweidnitz has twice demanded to capitulate, but has been refused, the Prussians being determined to have it at Discretion. On the 25th past some of the Forts which defend the Town were taken, and the Sap was carried within fifty Paces of another.

September 28. An Express which arrived on Saturday from the Allied Army brings Advice, that the Siege of Cassel was begun, Prince Ferdinand being determined to have it, and the French resolved to keep it; which it is supposed will bring on a general Engagement.

There are advices, that a Body of 18000 Turks have entered Hungary, and an Imperial Army is formed in that Kingdom.

They write from the Prussian Camp before Schweidnitz, of the 16th ult. that the Governor of that Fortress finding Provisions and Fire-wood decrease more and more, had sent a Courier (by the Permission of the Prussians) to Count Daun, and had agreed to surrender that Garrison to the Prussians on the Return of that Messenger.

They write from Paris, that Peace is looked on there as good as concluded, and that a Stop had been put to Equipments at Brest and Toulon.

Yesterday the Reports were, the Duke de Nivernois had Orders to return home; others said, that he had a fresh Sett of Preliminaries from his Court: Whether either of these Reports were true, we know not; however, Scrip fell to 94 1-Half.

They write from Constantinople of the 17th of August, That 40,000 Tartars had taken the Field; but whether they were going into Russia or Poland is not known.

By a Dutch Vessel arrived in 15 Days from Bourdeaux at Cork, we have Advice, that on the 25th past 8 Frigates, from 26 to 36 Guns, full of Troops, had sailed from thence; but meeting with bad Weather they put back the 27th, and sailed again the 28th, supposed to be destined to strengthen and secure their valuable Conquest of Newfoundland.

Alberquerque, which Count de Lippe is besieging, is a City of some Consequence by its Situation, commanding one of the great Roads from Madrid to Lisbon, lying between Valencia, which is already taken; and the very important City and Fortress of Badajor. As it is very probable Count de Lippe will soon take the Place, his Success, together with that of Gen. Burgoyne, at Valencia, will greatly revive the Spirits of the Troops, and convince the Spaniards that their own Frontiers are not only vulnerable, but that Spain itself will become the Seat of War.

He will also teach the Latin Grammar as well as the English; and well knowing the general Neglect of the Hand-writing when Boys once begin to make Latin Exercises, he is resolved to inspect their Exercises with the same Exactness he generally does their Copies, by this Means hopes to send them good Penmen, and expert Grammarians, to the Latin Schools.

upon the River Horlof, at a ſmall Diſtance from the French. The only Britiſh Troops engaged in this Action, were, according to the Accounts received here, Major General Elliot's Dragoons, and the Picquets under Lord Frederick Cavendiſh.

The Loſs of the Allies in the above Affair was Enſign During, Lieut. Eſſenbeck, 6 Subaltern Officers, and 64 Soldiers were killed; 19 Officers, 16 Subalterns, and 331 Soldiers wounded; 34 Officers, 46 Subalterns, made Priſoners, with 880 Soldiers, including the Miſſing and Deſerters; ſo that our Loſs in Killed, Wounded, Priſoners, &c. amounts to 1390 Men.---The Wound of the Hereditary Prince is not dangerous; the Ball grazed the Bone of the right Hip, called Os Ilcon, and came out above the Knee, by the Muſcle called Facia Lata.

Prague, Sept. 12. Schweidnitz continued to defend itſelf the Day before Yeſterday, but it will be next to impoſſible it ſhould hold out 6 Days longer. The Pruſſian Troops continue to ravage our Frontiers on the Side of Saxony, but have not yet poſſeſſed themſelves of any tenable Places.

Breſlau, Sept. 13. His Majeſty will not grant the Garriſon of Schweidnitz any other Terms than thoſe of ſurrendering Priſoners of War. After the taking of Schweidnitz, the King propoſes to drive M. Daun into Bohemia, and then to beſiege Glatz, the taking of which will put his Majeſty's Affairs into the ſame Situation they were in at the Beginning of the War, when, it is thought, he will liſten to Terms of Accommodation, and not before.

Copenhagen, Sept. 14. On Thurſday laſt, the 6th Inſt. the Marriage between the King of Denmark's ſecond Daughter and the Hereditary Prince of Heſſe, was publickly declared at Court.

All Differences between the Courts of Peterſburgh and Copenhagen are compromiſed, in Conſequence of which his Daniſh Majeſty is laying up his Fleet, and diſbanding his Troops. The King, jointly with the Empreſs, will be proclaimed Adminiſtrators of Holſtein, in Conſequence of which, both Courts will devolve that Truſt upon Prince George.

Brandenburgh, Aug. 25. The Inhabitants of Breſlau, to expreſs their Zeal for the King's Service, ſent the 15th to the Army before Schweidnitz, a Preſent of 400 Barrels of Beer, 200 Barrels of Brandy, and many Waggons loaded with Proviſions and Refreſhments.

From the Camp of the Allies near Swartzenborn, Aug. 10. General de Luckner attacked on the 21ſt a Body of the Enemy's Troops near Rupertenroth, beat them, took five Officers Priſoners, with 200 Men, and carried off a Piece of Cannon, and 30 Horſes.

Peterſburgh, Aug. 13. We are daily more and more confirmed, that our new Sovereign is reſolved to take no Part in the Quarrels of the belligerant Powers, and to avoid every Thing that may tend to interrupt the good Underſtanding that ſubſiſts between her and her Neighbours. The Prince Dolgorucki has received Orders to declare this to the Ottoman Porte.

The Empreſs ſets out on the 3d of September for Moſcow, and is to be crowned there the 10th of October. The young Prince Paul Petrowitz will go there before, and on the Day of his Mother's Coronation, is again to be acknowledged, and ſolemnly declared Grand Duke of all the Ruſſias.

Prince George of Holſtein Gottorp ſet out from hence the 30th ult. Some Days before his Departure he received a Preſent from the Empreſs, of 100,000 Rubles, and he rewarded the Perſon who brought it him with a Gold Snuff-Box ſet with Diamonds.

Vienna, Auguſt 21. We look upon Schweidnitz as a loſt Place, ſince the Attempt made by Marſhal Daun, to relieve it, proved unſucceſsful.

Vienna, Auguſt 28. The King of Pruſſia puſhes the Siege of Schweidnitz with the utmoſt Vigour, not only becauſe he is apprehenſive that Marſhal Daun may at length fall upon ſome efficacious Means to raiſe it; but principally that he may afterwards enter the County of Glatz, and lay Siege, before the End of the Campaign, to the Capital of that Name.

Ober Roſa, oppoſite Wetter, Sept. 17. Yeſterday Morning his Serene Highneſs gave out the Diſpoſition for the March from the Camp at Swartzenborn, and for an Attack to be made upon the Enemy on the Heights of Wetter, where they had a very conſiderable Corps under M. Conflans, and M. Levy, ſupported by the Prince of Conde's whole Force on this Side the Lahne, with the Army under the two Marſhals, cloſe on the Banks on the other Side. General Conway marched by the Right in the Night of the 15th, with a conſiderable Body, all Germans, except Mompeſſon's Brigade: He croſſed about 3 Leagues above Wetter, with Orders to march and attack their Left, which was poſted about the Town, as ſoon as he ſhould ſee the Army appear on the Plain in the Front. Luckner, who croſſed ſtill higher than the ſaid General, was to make a larger Circle, and to get into the Rear of their Left, with the Chaſſeurs of the Army, 6 Battalions of Grenadiers, and two Regiments of Cavalry, beſides Elliot's and his own Huſſars. All this was conducted with the utmoſt Preciſion, and all the Columns were at their ſeveral Deſtinations to a Moment. Luckner began with a very briſk Cannonade on the Back of the Hill above the Town, from whence the Enemy very ſoon retired. We cannonaded the Town for ſome Time; but on General Conway's coming up they quitted it, and retired in a good deal of Confuſion up the Hill, and ſoon from thence over the Lahne, their Rear being ſmartly cannonaded.

Breſlau, Sept. 20. It is reported here, that Marſhal Daun had detached General Haddick into Luſatia; and that the King of Pruſſia had thought proper, ſome Days ago, to ſend Major General Schmettau with a ſmall Corps towards Hirſchberg, to watch the Motions of General Haddick; and we hear that Schmettau's Corps had ſince received a ſmall Reinforcement.----Marſhal Daun, with the Groſs of his Army, continues in his former Poſition near Glatz, his Head Quarters at Scharfeneck. The Corps of the Pruſſians, which blocks up Schweidnitz on the Side of the Schweidnitz Waſſer, has been reinforced with ſome Battalions, to prevent the Garriſon from making their Eſcape that Way, when the Town ſhall be reduced to Extremity, and obliged to capitulate. The Mine which ſhould have been ready as Yeſterday, has been retarded by ſome Springs of Water, which obliged the Miners to abandon their firſt Plan; but it is expected it will be played off in a very few Days.

Brunſwick, Sept. 21. The Hereditary Prince has been removed to Munden, on the Confluence of the Fulda and the Werra, for the Safety of his Perſon; and the Day after his Arrival there, his Wound was opened and dilated; which Operation, tho' extremely painful, His Serene Highneſs bore with the greateſt Patience and Magnanimity.

The Siege of Caſſel, which had been ſuſpended, is now again to take Place. The Troops that had been detached from thence, are now returning; and the heavy Artillery that had been ſent away, is ordered back.

Hague, Sept. 21. We hear from Berlin, that the Ruſſian Troops have evacuated Memel, Pilau, and the whole Kingdom of Pruſſia.

Sept. 24. There are no Letters from the Army ſince the 17th. Prince Ferdinand's Head Quarters continued then at Wetter; his Poſts extended from Wartzbach upon the Lahne, to Homburgh upon the Ohme. General Freytag had defeated a Body of the Enemy between Alsfeldt and Newſtadt, which had attempted to intercept the Bread-waggon Train.

Glatz, Sept. 4. The Number of Pruſſians killed or wounded before the Ramparts of Schweidnitz ſince the Commencement of the Siege, is eſteemed at upwards of 3000
